

North Lake Senior Campus

 **Years 11 and 12**

 **Number of students: 250**

 **northlake.wa.edu.au**

North Lake Senior Campus enrolls school aged and mature aged students into Year 11 and 12 courses. Students can pursue a range of pathways depending on their post school intentions. The pathways open opportunities for students to achieve the Western Australian Certificate of Education (WACE), apprenticeships or traineeships, TAFE, or university entrance. As a senior campus, students of different ages and cultures work and interact harmoniously in a mature age setting where there are no bells or uniforms. Here, students are treated as young adults.

The school has its own Intensive English Centre (IEC) for new and recent arrivals to Australia where they learn to speak in Standard Australian English to transition into mainstream study programs.

Education

The teachers at North Lake Senior Campus ensure every student receives the support they need to achieve academic success. The school has an excellent Australian Tertiary Admission Rank (ATAR) record and a successful Vocational Education and Training (VET) program that positions students to smoothly transition to the next stages of their educational or vocational journeys. The school's certificate pathway to nursing is popular and highly regarded, and there are industry and vocational partners that help students to explore and realise their career opportunities.

Support for students

The student services centre supports the diverse needs of all students. An IEC program coordinator is there to assist IEC students. Vocational and career counselling is also available for students.

International students who are ready to start their mainstream education are supported by dedicated and specially trained teachers and staff who will support them to meet their goals.

Settling in

New students will attend an orientation program at the start of the year. Students also participate in a mentor program for 1 hour per week, throughout the year. This promotes effective relationships, life skills, organisational skills, and access to a wide range of support services.

The IEC has ethnic education assistants who speak a variety of different languages and assist students, in class with their English. Students also have access to Multicultural Futures – an organisation that helps international students connect with community services that support their integration and wellbeing.

Location

North Lake Senior Campus is 19 kilometres from the Perth city centre. The campus is close to Murdoch University, public libraries and public transport networks, shopping centres and leisure facilities. Students can also take a short bus ride to Fremantle, where they can enjoy vibrant cafes, restaurants, cultural centres and shops.
