

APPENDIX B. AUTOMATED EXTERNAL DEFIBRILLATOR

It is essential that principals of all public schools must have at least one Automated External Defibrillators (AED) installed on each worksite by 30 June 2024 and make every endeavour to ensure that the defibrillator is located on the outside wall of the administration building for each worksite.

AEDs will be purchased from reputable suppliers, compliant with Australian Standards and registered on the Australian Register of Therapeutic Goods.

AEDs will be made available for community use wherever possible.

AEDs are to be registered with St John WA Community First Responder program.

AEDs will be positioned to ensure maximum performance, noting performance may vary dependent upon environmental conditions.

Exemptions for not installing an AED on an external wall of the administration building can be found on Ikon. [Comply with requirements for defibrillators](#) (staff only).
